

MAGAIN

FLAGSTAFF HILL

5 3 2

This deceptively spacious home will have immense appeal to the larger family. The near level allotment measuring 1005 sqm has a fenced inground pool and still leaves ample room for the children to play.

Sited in a quiet cul-de-sac this large family home offers five bedrooms plus a study and three bathrooms. The flexible floorplan could also provide accommodation for teenagers or grannyflat or guests.

The large formal lounge/dine leads through to the kitchen/meals area whilst the games room is well separated from these areas.

Other features include a double garage, undercover spa area, and freshly painted throughout in neutral tonings. A once only opportunity to purchase a large home at a very realistic price.
