This quality built "brick on flat" residence has been lovingly maintained by the same owners for almost 30 years.

The moment you enter you will appreciate the space and style this home has to offer. Wide open passages and rooms with no steps make it ideal for wheelchair access and for manoeuvring those large pieces of furniture around. The large formal lounge leads into the spacious formal dining room which adjoins the country size eat in kitchen with ample cupboards and walk in pantry. The study or fourth double bedroom is also at this end of the home. The master bedroom with walk in robe and ensuite is privately located away from the "teenager retreat" or "Granny flat"
