This three bedroom family home has plenty of room to grow.

The practical floor plan means even the most diverse families can each have their own space. There are two large living areas, separate dining and a study. The main living area leads onto large undercover entertaining where you can enjoy plenty of time with family and friends. The three bedrooms are all a good size, the master with en suite and walk in robe, and the other two with built in robes, conveniently nestled around the family bathroom.

The outside area is versatile with plenty of space for pets and children, a workshop for anything that takes your fancy plus a separate storage shed. The double car port and driveway give plenty of room for parking.
