To the front of the home you will find the master bedroom with ceiling fan and built in robe. Nestled around the family bathroom and separate toilet are bedrooms two and three (one with built in robe).

To the rear is the spacious lounge with built in cupboard and split system air conditioner for your comfort. From here is the kitchen/diner with modern appliances and sliding doors to the extensive, partially decked, under cover entertaining area for you to relax on those balmy summer evenings and take in the beautiful garden.

To the side is a double length covered driveway, secured with a roller door and drive through access to the double garage. This has a laundry and storage area at the back for all those DIY enthusiasts.
