4 2 2

This absolutely perfect 2017 Stirling built home will leave you enthralled, pushing all of its attributes to the highest levels and with an innovative design that beautifully sets a new benchmark in family living.

The functional floor-plan offers the perfect blend of private and communal lifestyles. The front of the design is occupied by the spacious, striking master bedroom, with a huge walk-in robe, ceiling fan and stylish en-suite bathroom with twin basins. There is a functional utility room and store room, both with access from the home through to the sizeable double garage. These rooms are perfect for taking shoes off, children leaving their school bags before entering the home and just additional storage (something you can't have enough of!).
