REAL ESTATE

59 Ferris Street CHRISTIES BEACH SA

2 🏠 1 🚗 3 🚗

Set high on the hill this huge flat and level 791 sqm of land is so will be one of the best value buys this year with very little coming to market in recent times this close to the beautiful blue waters of the gulf of Saint Vincent.

The property features a 1960's two-bedroom cottage which is currently not in a livable condition. In fact it's ready for someone to knock it down and build their dream home having already been prepped for demolition with the electricity and gas already disconnected. For developers, there could be a potential subdivision here (STCC) with a block that is over 48m deep. For the creative mind, this funky little shack could be resurrected, however this is not a job for the faint hearted, requiring considerable skill and imagination.

Type : House
Land Size : 791 sqm
