The manicured front gardens of this home are an indication of just how well kept and lovely it is inside. A modern country style kitchen, renovated bathroom and 2nd living area make this home truly something special. The slate and timber laminate floors provide a warm homely feeling, as do the two combustion heaters in each of the living rooms. Three great sized bedrooms are complimented by a study for those who work or study from home.

There are great storage options throughout with plenty of cupboards everywhere you look. There are built in robes to two of the three bedrooms, plus the study. The kitchen has loads of cupboards too, and room for a French door fridge. A renovated laundry with built-in cabinetry leads to a 2nd toilet. A must for families!
