This extraordinary home is truly a sight to behold. One of the first homes built in Port Noarlunga, it's just bursting with charm and character. Situated on a huge corner block of 1427m² the future potential for subdivision is exceptional.

The period features throughout have been immaculately maintained and tastefully added to over the years. Claw foot bathtubs, touches of leadlight glass, genuine timber floorboards and real fireplaces are just the tip of the iceberg here. Sophisticated fixtures and fittings throughout certainly bring a further level of detail and charisma.
