5 3 4

More than meets the eye! Hidden behind a compact façade is a monster home perfect for multigenerational living. This beautifully presented and well-maintained home is absolutely huge. Set on a massive block of around 1177m2 there's a big 4 bedroom family home PLUS a fully separate 1-bedroom flat with full sized bathroom and kitchen facilities. Perfect for older kids or parents. In addition, there's a fully lined rumpus room or studio, complete with heating and cooling.

You won't believe how neat, tidy, and bright every space presents within this home.

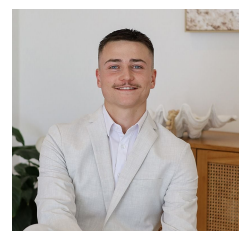

All the bedrooms and living spaces throughout both the main home and separate flat are impressive in size.
