

MAGAIN

2/38 Vinall Street Dover Gardens SA

Land cleared and ready for your dream single or double storey build in a sensational pocket of Dover Gardens. Hidden from the street and defined by its privacy, this rare offering presents a blank canvas where architecture and intention come together in quiet harmony.

Positioned within a tightly held cul-de-sac, the 459sqm (approx.) parcel unfolds with a sense of calm and separation, a setting that feels removed yet effortlessly connected. Set back from the street, it offers a natural sense of retreat, creating an environment where a home can be designed with purpose, away from the noise and exposure of more conventional allotments.

The hammerhead configuration lends itself to a considered and refined design response, inviting something bold, architectural, and entirely your own. Concept drawings
